

# SUMMER INTERNSHIP

## PART-TIME LABORATORY TECHNICIAN

### The Job:

Part-time help with washing glassware, cleaning coolers, total solids, and sample prep for wet chemistry, volatiles, metals, PFAs, and extractions- we will teach you what all these words and jobs mean :)

### WHO WE'RE LOOKING FOR:

- Hard workers that are excited about science and the environment
- Team players that can help support our core analysts in different departments
- We do NOT need you to have any previous experience working in wet labs, just excitement to learn :)

### WHO WE ARE:

- Merit Labs is an accredited environmental testing lab. We run tests on drinking water, soils, and air samples to ensure that our clients are meeting environmental cleanliness standards.
- We have an inclusive, laid back atmosphere, and we try to make our work place comfortable for all.

### WE NEED YOU TO BE:

- self motivated
- not afraid to ask questions
- good at following instructions
- An invested team member for our environmental laboratory

### WE ARE PASSIONATE ABOUT:

- Clean air, water, and soil for everyone in Michigan
- Environmental Justice
- Increasing inclusivity and diversity in STEM Fields

We are very flexible with hours and availability, however, our clients' needs and projects must be completed on time. You will have the freedom to work hours that best fit your schedule, as long as you are meeting the deadlines. We sometimes have "rush" samples that may require long hours or possibly weekend work.
